

Kevin McGowan, Chair of the Board of Directors

Kevin McGowan is a Project Manager with 25+ years of experience managing teams and programs in the non-profit and high tech sectors. He specializes in Learning and Knowledge Development, and brings the spirit of collaborative leadership to the Board of Directors.

"My family has seen childhood sexual abuse, across a few generations that I know about," Kevin explains. "While I wish that never happened, I also wish that my family would have had access to support like Voice Found provides. This organization is deeply meaningful to me, and I want to help its work expand to help more and more survivors."
